The best under the sun

markilux 990

Small, but impressive! You will be surprised how much technological sophistication there is to be found in this 125 mm high cassette. The folding arms and awning cover disappear into the compactly constructed cassette with U-shaped front profile. An impressive angle of pitch of up to 70 degrees when top fixing makes this awning suit smaller patios and balconies particularly well. Thanks to these advantages you can enjoy many hours relaxing in the most beautiful shade.

Cassette awning
max. 500 x 300 cm

Arm technology
twin steel-link chain,
optionally with Bionic tendon

Options
end cap insert in polished
chrome,
valance

Wall sealing profile

The slim aluminium profile in the same colour as the awning closes the gap between the awning and the wall, allowing rain to be discreetly drained off via the awning.
